

100 People 100 Stories 100 Dollars

Model Laboratory School – the Next 100 Years

As a kick-off to a Model Laboratory School Friends Club made up of alumni, faculty, staff, parents – all those who have made Model so special through the years – we are going to feature 100 people who donate \$100 and tell their stories about Model. Stories can be about a favorite teacher, a difference Model made in your life, a child who is going to Model currently – whatever makes Model important to you. Stories will be shared on the Model FACEBOOK page, the Model Alumni FACEBOOK page, and in an upcoming newsletter mailed to alumni, parents, and others. These “stories” can just be 2-3 sentences, or if you want to really write us a longer story, we would love to have it! You may also dedicate your story to a specific teacher or student and specify what photo you would like. I can take a photo, use one from a yearbook, or you may provide one.

This money will be administered by the ECU development office and used solely for Model Laboratory School. The administrators, in conjunction with our planning group of alumni, retired faculty, current faculty, etc., will decide priorities for use of this money. To start this kick-off and see some direct results, this first money raised will be split among: arts, athletics, gifted, exchange, and scholarship programs.

To become a charter member of this Model Friends Club, complete the attached information and return it as directed. Who will be the FIRST person featured? How quickly can we meet this goal of 100/100/100? Your stories will inspire others! We have a very special thank you gift for our first 100!
