

# F·A·M·E·

## *The Stephen Collins Foster Academy of Musical Excellence*

F.A.M.E. is now accepting new students for the group piano class at Model Laboratory School.

This class is a fun way for kids to explore the piano first-hand in a friendly and encouraging learning environment.

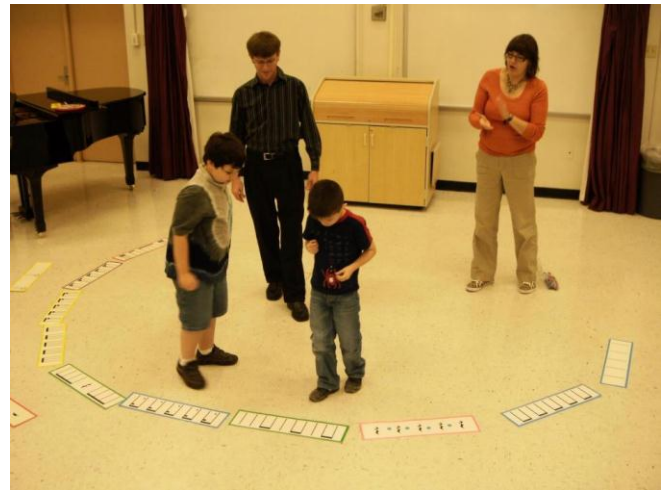

Additional Saturday classes are held once monthly and taught in the Foster Music Building where our students have opportunities to learn more about music theory, history, and performance techniques. These classes are free and open to all F.A.M.E. piano students.

Group classes are held at Model Laboratory School on Monday afternoons from 3:00 to 3:50. Tuition is \$120 per student each semester.

Performance opportunities are also provided at no additional charge.

Contact Dr. Rachel Taylor for additional program and application information.
